GTI SERVICE NOTE

GTI 118   **September 2, 2014**

IMMEDIATE ACTION REQUIRED
DE-3020 TERMINAL PROGRAM UPDATE

A few minor improvements to the DE-3020 terminal program are implemented. It is highly recommended to update your DE-3020 terminal program to V1.2. The revised terminal program is provided on the private side website.

Improvements:

- Channel De-Selection (previous selected channels can be de-selected and will not display "Fault")
- Default labels on channel 12-14 changed to N/C from N/O
- The ability to enter -0 without programming error
- USB Driver installs on initial download of program
- Retrieval of channel selection and labels on AUX 1-6 is fixed
