

GTI SERVICE NOTE

GTI 120

March 23, 2015

GTI S/N TRACKING: IMMEDIATE ACTION REQUIRED THIS SERVICE NOTE APPLIES TO CARB AND STANDARD SYSTEMS

Due to the extended warranty offered by the CARB systems, it has become necessary for Altronic to change the manner in which warranty/repair parts are tracked in our system. Major component serial numbers must be recorded on all commissioning sheets.

These serial numbers are used on the Warranty/Repair Claim Form.

Major components:

- ZPR (50, 65, 80)
- DMV (50, 65, 80)
- Single Valve (SV) (StepCon)
- VFR (25)
- AGV5 (GTI+)
- Shutoff Valve (GTI+)
- Watt Transducer
- Vibration Sensor (Metrix and VSM+)

ZPR (GGR005, GGR006, GGR007)

The S/N of the ZPR can be found below the barcode. Reference pictures below. Please record the last 4 digits.

SERVICE BULLETIN

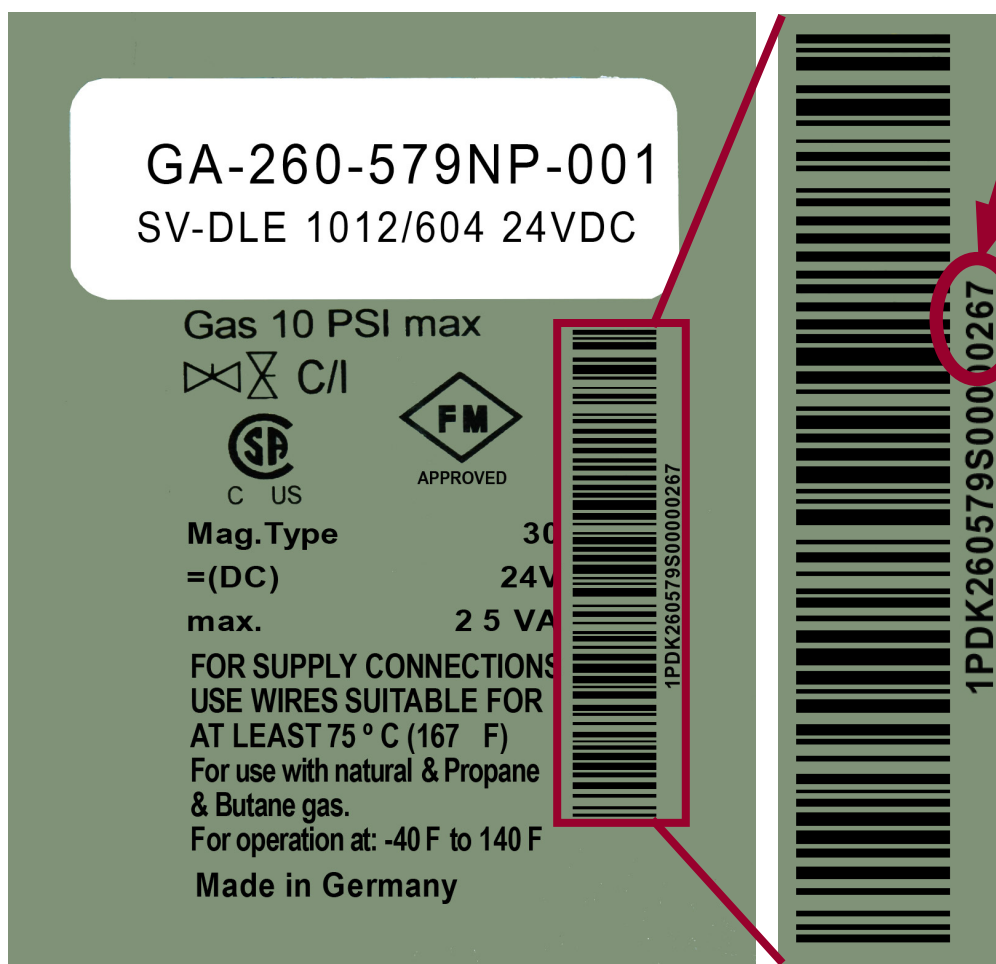

DMV (GSV004, GSV005, GSV006)

The S/N of the DMV can be found below the barcode. Reference picture below. Please record the last 4 digits.

SV (GSV011) and VFR (GSV010-12)

The S/N of the SV can be found below the barcode. Reference picture below. Please record the last 4 digits.

AGV5 (1L and 2L)

The S/N of the AGV can be found on the label attached to the top of the AGV. Reference picture below.
Please record all 4 digits.

Shutoff Valve (GSV012)

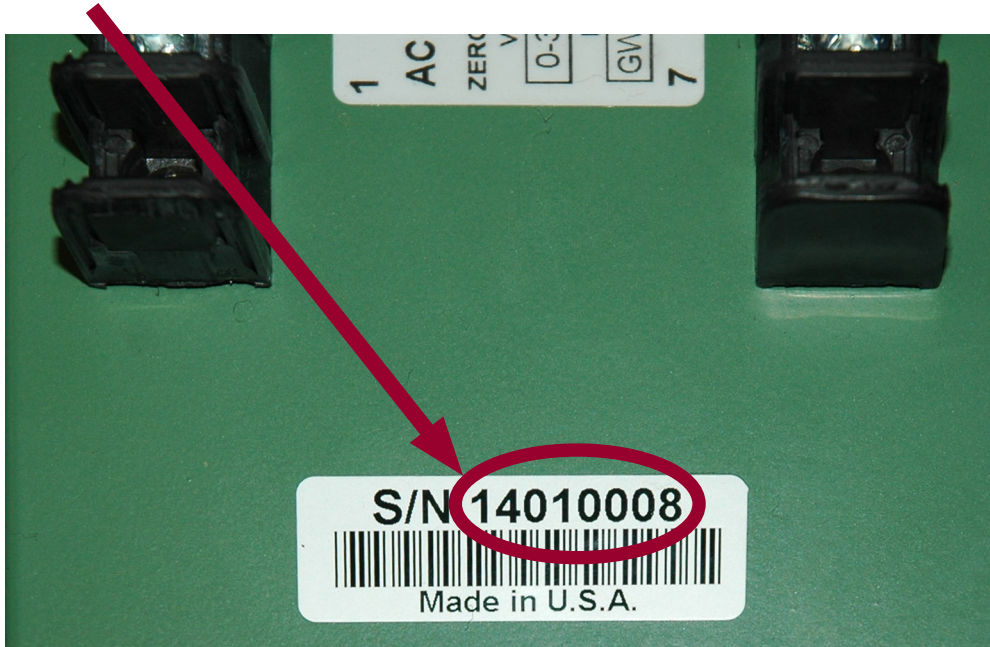

The S/N of the Shutoff Valve can be found on the label below the open/shut sight window. Reference picture below.
Please record the last 4 digits.

SERVICE BULLETIN

Watt Transducer (G11081 - 480V, 600V, FLX, and G11023 - 480V and 600V)

The S/N of the Watt Transducer can be found on the label located on top of the device. Reference picture below. Please record all digits.

Vibration Sensor (691715-1, 662029-1, GPA0006-1)

The S/N of the Vibration Sensor can be found on the label located on top of the device (VSM+) or laser etched on the device itself (Metrix). Reference picture below. Please record all digits.
